DRAWING VOCABULARY

ENGLISH	SPANISH	
Dimension	Cota	
Dimensioning	Acotación	
Scale	Escala	

Drawing: Shapes and forms on a surface done by means of lines. Color and shading may be included.

Figure: The primary shape in a drawing.

Freehand Drawing: Drawn by hand, without the use of any mechanical device.

Line: A mark with length and direction.

Types of line include:

- vertical, horizontal, diagonal,
- straight or ruled, curved,
- thin, thick or wide,
- continuous, interrupted (dotted, dashed),
- freehand, parallel, perpendicular.

Perspective: Any system used to represent three dimensional figures on a flat surface (for example paper).

Shape: The shape of an object refers to the part of space occupied by the object as determined by the external limits of this object. The form of a figure.

Sketch: A quick drawing that loosely captures the appearance of a figure.
